

November 9, 2023

To: Tifton H.E.R.D. Consignors

From:   
Francine Henry, Ph.D., Ext. Beef Specialist

Enclosed is Report 2 on the HERD heifers that were worked yesterday. Special thanks to Dr. Brent Credille and Dr. Angie McDaniel of the UGA College of Veterinary Medicine for doing the reproductive tract maturity scores and pelvic area measurements.

As a result, 11 heifers have now been moved to a “non-sale eligible report” and will not be posted with this report. Those consignors will be notified. Eight heifers had a reproductive tract maturity score of a 1, two heifers had actual pelvic measurements of less than 140 sq. cm., and one heifer is out of our birthdate requirement.

The quality of the females in the program is extremely high. As a whole, they are healthy and doing well.

CIDRs were also inserted yesterday by Agents from the H.E.R.D. Team. Weights on the heifers ranged from 556 to 1,035 pounds. The actual pelvic measurements ranged from 110.00 sq cm to 262.5 sq. cm., and the RTMS ranged from 1 to 5.

Our synchronization program will continue as follows: **The HERD Team has selected G A R Sure Fire as the primary sire and Baldrige Marksman for those heifers closely related to Sure Fire.**

- November 22 – CIDRs are removed
- December 8 – Lutalyse is injected
- December 11 – Time breed all heifers; inject GnRH at breeding
- December 19 – Clean up bulls placed with the heifers

**NOTE: If you plan to provide semen from an alternative bull, it must be delivered to Irwinville ASAP!**

**Reminder: The Calhoun Bull Evaluation Sale is December 1<sup>st</sup>. The sale catalog can be found on our website. Videos will be posted soon.**

Feel free to visit our website [ugabeef.com](http://ugabeef.com) for early posting of reports and a complete schedule of activities planned for the program. Please contact us if you have any questions.
